Length of Course: One Semester

Curriculum

Course Description:

The Advanced Placement Course in United States Government & Politics is a one-semester course designed to give students a critical perspective on U.S. politics and government. The objective of this course is to provide students with an introduction to political science, and it is presented at the level of a traditional college-level survey course. The class offers students an opportunity to acquire an in-depth view of the unique nature of the American experiment in democracy and the interactions and processes, which are at the heart of our political system.

Emphasis in this course is placed on analyzing theories of government and the processes by which they are implemented. A major goal of this study is to evaluate the factors and influences that impact, both positively and negatively, the operations of government. An equally important goal of the course is the development of sophisticated analytical writing skills. The course is taught at or near the college-level, and it requires a substantial amount of reading and preparation for every class. The objectives of this course go well beyond a basic analysis of how our government “works.” Students will develop a critical understanding of the strengths and weaknesses of the American political system, as well as their rights and responsibilities as citizens. Students will investigate how political beliefs, political parties, interest groups, mass media, and the institutions of the national government shape the political process.

Students who successfully complete the AP United States Government & Politics course will attain a deeper understanding of the relationships among political actors and institutions. At the conclusion of the course, students are required to take the Advanced Placement Examination in May.

The U.S. Constitution arose out of important historical and philosophical ideas and preferences regarding popular sovereignty and limited government. Compromises were made during the Constitutional Convention and ratification debates, and these compromises have frequently been the source of conflict in U.S. politics over the proper balance between individual freedom, social order, and equality of opportunity.

Standard 6.3 Active Citizenship in the 21st Century. All students will acquire the skills needed to be active, informed citizens who value diversity and promote cultural understanding by working collaboratively to address challenges that are inherent in living in an interconnected world.

Unit # 2 – Interactions Among Branches of Government (25-36%)

The three key institutions of the federal government are Congress, the Presidency, and the Courts. The bureaucracy, which implements policy, is seen by some as an extension of the executive branch and by others as, in effect, a fourth branch of government because of the discretion it can exercise in carrying out policy directives. The Constitution grants specific powers to Congress, the president, and the courts, and in addition, each branch exercises informal powers (developed through political practice, tradition, and legislation). Because checks and balances are designed to prevent one branch from becoming too powerful, Congress and the president, for example, will sometimes cooperate and sometimes compete in governance.

The presidency has been enhanced beyond its expressed constitutional powers. **BIG IDEA: Constitutionalism**

The design of the judicial branch protects the Supreme Court's independence as a branch of government, and the emergence and use of judicial review remains a powerful judicial practice. **BIG IDEA: Constitutionalism**

Essential Questions & learning objectives

Enduring Understandings

What will students understand about the big ideas?

<i>What provocative questions will foster inquiry, understanding, and transfer of learning?</i>	
<ul style="list-style-type: none"> ● How do the branches of the national government compete and cooperate in order to govern? ● To what extent have changes in the powers of each branch affected how responsive and accountable the national government is in the 21st century? 	<p>Students will understand that...</p> <ol style="list-style-type: none"> 1. Describe the different structures, powers, and functions of each house of Congress. <ul style="list-style-type: none"> ● The Senate is designed to represent states equally, while the House is designed to represent the population ● Different chamber sizes and constituencies influence formality of debate. ● Coalitions in Congress are affected by term-length differences. ● The enumerated and implied powers in the Constitution allow the creation of public policy by Congress, which includes: Passing a federal budget, raising revenue, and coining money; Declaring war and maintaining the armed forces; Enacting legislation that addresses a wide range of economic, environmental, and social issues based on the Necessary and Proper Clause 2. Explain how the structure, powers, and functions of both houses of Congress affect the policymaking process. <ul style="list-style-type: none"> ● By design, the different structures, powers, and functions of the U.S. Senate and House of Representatives affect the policy-making process. ● Though both chambers rely on committees to conduct hearings and debate bills under consideration, different constitutional responsibilities of the House and Senate affect the policy-making process. ● Chamber-specific procedures, rules, and roles that impact the policy-making process include: Number of chamber and debate rules that set the bar high for building majority support; Roles of Speaker of the House, President of the Senate, party leadership, and

committee leadership in both chambers; Filibuster and cloture; Holds and unanimous consent in the Senate; Role of Rules Committee, Committee of the Whole, and discharge petitions in the House; Treaty ratification and confirmation role of the Senate

- Congress must generate a budget that addresses both discretionary and mandatory spending, and as entitlement costs grow, discretionary spending opportunities will decrease unless tax revenues increase or the budget deficit increases.
- Pork barrel legislation and logrolling affect lawmaking in both chambers.

3. Explain how congressional behavior is influenced by election processes, partisanship, and divided government.

- Congressional behavior and governing effectiveness are influenced by: Ideological divisions within Congress that can lead to gridlock or create the need for negotiation and compromise; Gerrymandering, redistricting, and unequal representation of constituencies have been partially addressed by such Court decisions as **Baker v. Carr (1961)**, which opened the door to equal protection challenges to redistricting and stated the “**one person, one vote**” **doctrine**, and the no-racialgerrymandering decision in **Shaw v. Reno (1993)**; Elections that have led to a divided government, including partisan votes against presidential initiatives and congressional refusal to confirm appointments of “lame-duck” presidents of the opposite party; Different role conceptions of “trustee,” “delegate,” and “politico”

as related to constituent accountability in each chamber

4. Explain how the president can implement a policy agenda.

- Presidents use powers and perform functions of the office to accomplish a policy agenda.
- Formal and informal powers of the president include: Vetoes and pocket vetoes – formal powers that enable the president to check Congress; Foreign policy – both formal (Commander-in-Chief and treaties) and informal (executive agreements) powers that influence relations with foreign nations; Bargaining and persuasion – informal power that enables the president to secure congressional action; Executive orders – implied from the president's vested executive power, or from power delegated by Congress, executive orders are used by the president to manage the federal government; Signing statements – informal power that informs Congress and the public of the president's interpretation of laws passed by Congress and signed by the president

5. Explain how the president's agenda can create tension and frequent confrontations with Congress.

- The potential for conflict with the Senate depends upon the type of executive branch appointments, including: Cabinet members; Ambassadors; White House staff
- Senate confirmation is an important check on appointment powers, but the president's longest lasting influence lies in life-tenured judicial appointments.
- Policy initiatives and executive orders promoted by the president often lead to conflict with the congressional agenda.

6. Explain how presidents have interpreted and justified their use of formal and informal powers.

- Justifications for a single executive are set forth in **Federalist No. 70**.
- Term-of-office and constitutional-power restrictions, including the passage of the **Twenty-second Amendment**, demonstrate changing presidential roles
- Different perspectives on the presidential role, ranging from a limited to a more expansive interpretation and use of power, continue to be debated in the context of contemporary events.

7. Explain how communication technology has changed the president's relationship with the national constituency and the other branches

- The communication impact of the presidency can be demonstrated through such factors as: Modern technology, social media, and rapid response to political issues; Nationally broadcast State of the Union messages and the president's bully pulpit used as tools for agenda setting

8. Explain the principle of judicial review and how it checks the power of other institutions and state governments.

- The foundation for powers of the judicial branch and how its independence checks the power of other institutions and state governments are set forth in: **Article III of the Constitution; Federalist No. 78; Marbury v. Madison (1803)**

9. Explain how the exercise of judicial review in conjunction with life tenure can lead to debate about the legitimacy of the Supreme Court's power.

- Precedents and stare decisis play an important role in judicial decision making.
- Ideological changes in the composition of the Supreme Court due to presidential appointments have led to the Court's establishing new or rejecting existing precedents.
- Controversial or unpopular Supreme Court decisions can lead to challenges of the Court's legitimacy and power which Congress and the president can address only through future appointments, legislation changing the Court's jurisdiction, or refusing to implement decisions.
- Political discussion about the Supreme Court's power is illustrated by the ongoing debate over judicial activism versus judicial restraint.

10. Explain how other branches in the government can limit the Supreme Court's power.

- Restrictions on the Supreme Court are represented by: Congressional legislation to modify the impact of prior Supreme Court decisions; Constitutional amendments; Judicial appointments and confirmations; The president and states evading or ignoring Supreme Court decisions; Legislation impacting court jurisdiction

11. Explain how the bureaucracy carries out the responsibilities of the federal government.

- Tasks performed by departments, agencies, commissions, and government corporations are represented by: Writing and enforcing regulations; Issuing fines; Testifying before Congress; Issue networks and "iron triangles"
- Political patronage, civil service, and merit system reforms all impact the effectiveness of the bureaucracy by

promoting professionalism, specialization, and neutrality.

12. Explain how the federal bureaucracy uses delegated discretionary authority for rule making and implementation.

- Discretionary and rule-making authority to implement policy are given to bureaucratic departments, agencies, and commissions, such as: Department of Homeland Security; Department of Transportation; Department of Veterans Affairs; Department of Education; Environmental Protection Agency (EPA); Federal Elections Commission (FEC); Securities and Exchange Commission (SEC)

13. Explain how Congress uses its oversight power in its relationship with the executive branch.

- Oversight and methods used by Congress to ensure that legislation is implemented as intended are represented by: Committee hearings; Power of the purse
- As a means to curtail the use of presidential power, congressional oversight serves as a check of executive authorization and appropriation.

14. Explain how the president ensures that executive branch agencies and departments carry out their responsibilities in concert with the goals of the administration

- Presidential ideology, authority, and influence affect how executive branch agencies carry out the goals of the administration.
- Compliance monitoring can pose a challenge to policy implementation.

15. Explain the extent to which governmental branches can hold the bureaucracy accountable given the competing interests of Congress, the president, and the federal courts.

- Formal and informal powers of Congress, the president, and the

	courts over the bureaucracy are used to maintain its accountability

Unit # 3 – Civil Liberties & Civil Rights (13-18%)

Through the U.S. Constitution, but primarily through the Bill of Rights and the Fourteenth Amendment, citizens and groups have attempted to restrict national and state governments from unduly infringing upon individual rights essential to ordered liberty and from denying equal protection under the law. Likewise, it has sometimes been argued that these legal protections have been used to block reforms and restrict freedoms of others in the name of social order.

- A. The Constitution, but especially the Bill of Rights and the Fourteenth Amendment, are used to assert the rights of citizens and protect groups from discrimination. As such, the government must respect the dignity of the person and assure equal treatment, with its power constrained in the process of protecting individual freedoms. The Fourteenth Amendment includes two clauses that affirm and protect civil rights and liberties—the due process clause and the equal protection clause. The courts must balance the desire for social order with the protection of individual rights and freedoms when considering due process and equal protection challenges.
- B. In a process known as selective incorporation, the Supreme Court has used the power of judicial review to interpret the due process clause in such a way as to prevent states from unduly restricting fundamental freedoms. The Court has been called upon to interpret protections for freedom of political expression and religious exercise, the right to bear arms, the right of privacy, and the rights necessary to ensure that those accused of crimes receive a fair trial.
- C. The equal protection clause provides that states may not deprive persons of equal protection under the law. African Americans, Hispanics, women, LGBTQ (lesbian, gay, bisexual, transgender, queer) people, and other groups have used the clause to lead social movements on behalf of their concerns. The Supreme Court has rendered several landmark decisions that expand civil rights, and Congress

has passed legislation that expands equality. At times Congress and the courts are asked to determine the legitimacy of equal protection claims by various groups, as well as weigh the majority’s concerns that they will be harmed by the changes sought.

Big Ideas: *Course Objectives / Content Statement(s)*

Provisions of the U.S. Constitution’s Bill of Rights are continually being interpreted to balance the power of government and the civil liberties of individuals. BIG IDEA: Liberty and Order

Protections of the Bill of Rights have been selectively incorporated by way of the Fourteenth Amendment’s due process clause to prevent state infringement of basic liberties. BIG IDEA: Liberty and Order

The Fourteenth Amendment’s equal protection clause as well as other constitutional provisions have often been used to support the advancement of equality. BIG IDEA: Civic Participation in a Representative Democracy

Public policy promoting civil rights is influenced by citizen–state interactions and constitutional interpretation over time. BIG IDEA: Competing Policy-Making Interests

The Supreme Court’s interpretation of the U.S. Constitution is influenced by the composition of the Court and citizen–state interactions. At times, it has restricted minority rights and, at others, protected them. BIG IDEA: Constitutionalism

interpretations of the First Amendment that limit speech, including: Time, place, and manner regulations. Defamatory, offensive, and obscene statements and gestures. That which creates a “clear and present danger” based on the ruling in **Schenck v. United States** (1919)

- In **New York Times Co. v. United States** (1971), the Supreme Court bolstered the freedom of the press, establishing a “heavy presumption against prior restraint” even in cases involving national security.
 - The Supreme Court’s decisions on the Second Amendment rest upon its constitutional interpretation of individual liberty.
4. Explain how the Supreme Court has attempted to balance claims of individual freedom with laws and enforcement procedures that promote public order and safety
- Court decisions defining cruel and unusual punishment involve interpretation of the **Eighth Amendment** and its application to state death penalty statutes over time.
 - The debate about the **Second and Fourth Amendments** involves concerns about public safety and whether or not the government regulation of firearms or collection of digital metadata promotes or interferes with public safety and individual rights.
5. Explain the implications of the doctrine of selective incorporation.
- The doctrine of selective incorporation has imposed on state regulation of civil rights and liberties as represented by: **McDonald v. Chicago** (2010), which ruled the **Second Amendment’s** right to keep and bear arms for self-defense in one’s home is applicable to the states

through the **Fourteenth Amendment**

6. Explain the extent to which states are limited by the due process clause from infringing upon individual rights.
- The Supreme Court has on occasion ruled in favor of states' power to restrict individual liberty; for example, when speech can be shown to increase the danger to public safety.
 - The Miranda rule involves the interpretation and application of accused persons' due process rights as protected by the **Fifth and Sixth Amendments**, yet the Supreme Court has sanctioned a public safety exception that allows unwarned interrogation to stand as direct evidence in court.
 - Pretrial rights of the accused and the prohibition of unreasonable searches and seizures are intended to ensure that citizen liberties are not eclipsed by the need for social order and security, including: The right to legal counsel, a speedy and public trial, and an impartial jury. Protection against warrantless searches of cell phone data under the **Fourth Amendment**. Limitations placed on bulk collection of telecommunication metadata (Patriot and USA Freedom Acts)
 - The due process clause has been applied to guarantee the right to an attorney and protection from unreasonable searches and seizures, as represented by: **Gideon v. Wainwright** (1963), which guaranteed the right to an attorney for the poor or indigent w The exclusionary rule, which stipulates that evidence illegally seized by law enforcement officers in violation of the suspect's **Fourth Amendment** right to be free from unreasonable

searches and seizures cannot be used against that suspect in criminal prosecution.

- While a right to privacy is not explicitly named in the **Constitution**, the Supreme Court has interpreted the due process clause to protect the right of privacy from state infringement. This interpretation of the due process clause has been the subject of controversy, such as has resulted from: **Roe v. Wade** (1973), which extended the right of privacy to a woman's decision to have an abortion while recognizing compelling state interests in potential life and maternal health [NOTE: The case of Roe v. Wade is widely considered required content in college courses, and while students are expected to understand that this case represents an instance in which the Supreme Court applied the due process clause, students are not expected or required to either agree or disagree with the Court's decision. Teachers should encourage students to be familiar with the legal arguments on both sides of leading constitutional cases and thoughtfully analyze the majority and dissenting opinions in cases relating to states' rights, the due process clause, and the Bill of Rights.]

7. Explain how constitutional provisions have supported and motivated social movements

- Civil rights protect individuals from discrimination based on characteristics such as race, national origin, religion, and sex; these rights are guaranteed to all citizens under the due process and equal protection clauses of the **U.S. Constitution**, as well as acts of Congress. The leadership and events associated with civil, women's, and

LGBTQ rights are evidence of how the equal protection clause can support and motivate social movements, as represented by: Dr. Martin Luther King's "**Letter from a Birmingham Jail**" and the civil rights movement of the 1960s w The National Organization for Women and the women's rights movement w The pro-life (anti-abortion) movement

8. Explain how the government has responded to social movements.
 - The government can respond to social movements through court rulings and/or policies, as in: w **Brown v. Board of Education** (1954), which declared that race-based school segregation violates the **Fourteenth Amendment's** equal protection clause. The Civil Rights Act of 1964. Title IX of the Education Amendments Act of 1972. The Voting Rights Act of 1965
9. Explain how the Supreme Court has at times allowed the restriction of the civil rights of minority groups and at other times has protected those rights.
 - Decisions demonstrating that minority rights have been restricted at times and protected at other times include: State laws and Supreme Court holdings restricting African American access to the same restaurants, hotels, schools, etc., as the majority white population based on the "separate but equal" doctrine. **Brown v. Board of Education** (1954), which declared that race-based school segregation violates the **Fourteenth Amendment's** equal protection clause. The Supreme Court upholding the rights of the majority in cases that limit and prohibit majority-minority districting.

Unit # 4 – American Political Ideologies and Beliefs (9-15%)

American political beliefs are shaped by founding ideals, core values, linkage institutions (e.g., elections, political parties, interest groups, and the media in all its forms), and the changing demographics of citizens. These beliefs about government, politics, and the individual’s role in the political system influence the creation of public policies.

Unit 5: Political Participation (20-27%)

Governing is achieved directly through citizen participation and indirectly through institutions (e.g., political parties, interest groups, and mass media) that inform, organize, and mobilize support to influence government and politics, resulting in many venues for citizen influence on policy making.

--	---

- Linkage institutions are channels, such as the following, that allow individuals to communicate their preferences to policy-makers: Parties; Interest Groups; Elections; Media

Explain the function and impact of political parties on the electorate and government.

- The functions and impact of political parties on the electorate and government are represented by: Mobilization and education of voters; Party platforms; Candidate recruitment; Campaign management, including fundraising and media strategy; The committee and party leadership systems in legislatures

Explain why and how political parties change and adapt.

- Parties have adapted to candidate-centered campaigns, and their role in nominating candidates has been weakened.
- Parties modify their policies and messaging to appeal to various demographic coalitions.
- The structure of parties has been influenced by: Critical elections and regional realignments; Campaign finance law; Changes in communication and data-management technology
- Parties use communication technology and voter-data management to disseminate, control, and clarify political messages and enhance outreach and mobilization efforts.

Explain how structural barriers impact third-party and independent candidate success.

- In comparison to proportional systems, winner-take-all voting districts serve as a structural barrier to third-party and independent candidate success.

- The incorporation of third-party agendas into platforms of major political parties serves as a barrier to third-party and independent candidate success.

Explain the benefits and potential problems of interest-group influence on elections and policy making.

- Interest groups may represent very specific or more general interests, and can educate voters and office holders, draft legislation, and mobilize membership to apply pressure on and work with legislators and government agencies.
- In addition to working within party coalitions, interest groups exert influence through long-standing relationships with bureaucratic agencies, congressional committees, and other interest groups; such relationships are described as “iron triangles” and issue networks and they help interest groups exert influence across political party coalitions.

Explain how variation in types and resources of interest groups affects their ability to influence elections and policy making.

- Interest group influence may be impacted by: Inequality of political and economic resources; Unequal access to decision makers; “Free rider” problem

Explain how various political actors influence public policy outcomes.

- Single-issue groups, ideological/social movements, and protest movements form with the goal of impacting society and policy making.
- Competing actors such as interest groups, professional organizations, social movements, the military, and bureaucratic agencies influence policy making, such as the federal budget

process, at key stages and to varying degrees.

- Elections and political parties are related to major policy shifts or initiatives, occasionally leading to political realignments of voting constituencies.

Explain how the different processes work in a U.S. presidential election.

- The process and outcomes in U.S. presidential elections are impacted by: Incumbency advantage phenomenon; Open and closed primaries; Caucuses; Party conventions; Congressional and State elections; The Electoral College

Explain how the Electoral College impacts democratic participation.

- The winner-take-all allocation of votes per state (except Maine and Nebraska) under the setup of the Electoral College compared with the national popular vote for president raises questions about whether the Electoral College facilitates or impedes democracy.

Explain how the different processes work in U.S. congressional elections.

- The process and outcomes in U.S. Congressional elections are impacted by: Incumbency advantage phenomenon; Open and closed primaries; Caucuses; General (presidential and mid-term) elections

Explain how campaign organizations and strategies affect the election process.

- The benefits and drawbacks of modern campaigns are represented by: Dependence on professional consultants; Rising campaign costs and intensive fundraising efforts; Duration of election cycles; Impact of and reliance on social media for campaign communication and fundraising

Explain how the organization, finance, and strategies of national political campaigns affect the election process.

- Federal legislation and case law pertaining to campaign finance demonstrate the ongoing debate over the role of money in political and free speech, as set forth in: Bipartisan Campaign Reform Act of 2002, which was an effort to ban soft money and reduce attack ads with “Stand by Your Ad” provision: “I’m [candidate’s name] and I approve this message” ; **Citizens United v. Federal Election Commission (2010)**, which ruled that political spending by corporations, associations, and labor unions is a form of protected speech under the First Amendment
- Debates have increased over free speech and competitive and fair elections related to money and campaign funding (including contributions from individuals, PACs, and political parties).
- Different types of political action committees (PACs) influence elections and policy making through fundraising and spending.

Explain the media’s role as a linkage institution.

- Traditional news media, new communication technologies, and advances in social media have profoundly influenced how citizens routinely acquire political information, including new events, investigative journalism, election coverage, and political commentary.
- The media’s use of polling results to convey popular levels of trust and confidence in government can impact elections by turning such events into “horse races” based more on popularity and factors other than

	<p>qualifications and platforms of candidates.</p> <p>Explain how increasingly diverse choices of media and communication outlets influence political institutions and behavior.</p> <ul style="list-style-type: none"> ● Political participation is influenced by a variety of media coverage, analysis, and commentary on political events. ● The rapidly increasing demand for media and political communications outlets from an ideologically diverse audience have led to debates over media bias and the impact of media ownership and partisan news sites. ● The nature of democratic debate and the level of political knowledge among citizens is impacted by: Increased media choices; Ideologically oriented programming; Consumer-driven media outlets and emerging technologies that reinforce existing beliefs; Uncertainty over the credibility of news sources and information.
