The Arc of Union County provides a variety of Family Support Services. These services have been developed to assist and empower families who are caring for a family member with an intellectual and developmental disability. Our network of supports is designed to encourage person-centered, community based opportunities which supports an individual's interests and choices. Family Support strives to enhance the quality of the individual while supporting the needs of the entire family.

The mission of The Arc of Union County is to empower and support people with intellectual and developmental disabilities and their families. This organization will utilize all of its resources to ensure our members, their families, and all people with intellectual and developmental disabilities associated with The Arc of Union County realize a full, productive, and enhanced life.

For people with intellectual and developmental disabilities
