

Nook

Be sure to download and save the ebook file to your computer before following the directions below.

Using the custom microUSB cable provided with your NOOK, connect your NOOK to your computer.

NOTE: Use only the microUSB cable provided with your NOOK. Using any other cable might damage your NOOK.

When you connect your NOOK to your personal computer, your NOOK will appear as a new removable drive on your personal computer. Drag the files you want to transfer onto this drive.

To organize the files, open the NOOK drive. You'll see several folders on your NOOK. Move your personal files in the **My Files** folder. Within the folder, you can sort files into these folders:

- Books
- Documents
- Magazines
- Music
- Newspapers
- Pictures
- Videos
- Wallpapers
- NOOK Kids Recordings

You should place Microsoft Office files, .txt files, and PDFs in the **Documents** folders.

You should place your music, such as MP3 files, in the **Music** folder.

You should place your pictures, such as .jpg and .png files, in the **Pictures** folder.

When you have finished arranging files, eject the NOOK drive from your personal computer. Disconnect the NOOK microUSB cable.
